

ARCADIAN

Dear Mr. Gernsback;

I noted Mr. Cornett's letter in the May issue of Radio-Electronics (p. 23), and from it one would infer that there was no other Bally-oriented information source available. In actuality, I have been publishing the ARCADIAN Newsletter since November, 1978.

I know that this is a pure oversight on the part of Mr. Cornett, as he has been a subscriber for quite a while, and it was his advertisement in issue number 11 that started his current operation.

I would appreciate a mention of the ARCADIAN in the next available issue, to inform your readers of the existence of an alternative or concurrent information/software/hardware source. Our subscription rate is \$12.50 per year.

Yours very truly,
